

**Minutes, Atkinson Conservation Commission
October 4, 2008
Workshop Site Visits**

Attending:

Tim Dziechowski
Dan Kimball
Scott Kukshel
Denise Legault
Pete McVay
Paul Wainwright

Site walks were held for pending requests at 3:00.

Notes

HAWC minimum impact dredge and fill for temporary test weir on outflow stream from Stewarts Farm Pond. Charlie Lanza, HAWC engineer, pointed out the proposed weir site and answered questions concerning impact of the weir on the stream. The commission members approved the request, pending formal approval at the next open Commission meeting on Monday.

Maple Heights subdivision at 40 Maple Ave, 10/4 site walk, looked at trail easement to connect to trail easement on Scott Kukshel's land for through trail to Kelly Lane. An unmarked wetland was discovered on the walk, and the site review will be returned for discussion at the Monday open meeting.

Kevin Bresnahan request for wetlands setback to rebuild preexisting nonconforming deck at 5 Jasmine Drive. Since the wetland impact was minimal, the commission voted to recommend variance to the ZBA.

Respectfully submitted,

Pete McVay
